Re: Transfer of Dugout Canyon Mine Sediment Pond Sediment to the Banning Loadout

Dear Pam:

Canyon Fuel Company, LLC (CFC) is submitting these applications to modify the Dugout Canyon Mine and Banning Loadout Mining and Reclamation Plans to allow for the storage at the Banning Loadout of sediment removed from the Dugout Canyon Mine sedimentation pond. Five clean and redline-strikethrough copies of the modified pages of each M&RP have been included with this letter. A copy has been forwarded to Mr. Steve Demczak of the Division's Price office.

CFC plans to remove sediment from the Dugout Canyon Mine sedimentation pond and store it at the Banning Loadout in the area designated for equipment storage. A sample of the sediment has been obtained and analyzed to determine if it would be suitable as substitute growth media during reclamation. Results of the analysis indicate it is acceptable and is potentially as good or better than the material currently available at Banning for reclamation purposes. Therefore, it is CFC's intent to remove the sediment from the Dugout sediment pond, store it at Banning, and potentially use it during final loadout.

In addition to storing Dugout Canyon Mine pond sediment at Banning, CFC would like to, if necessary, pump the sediment pond water that does not meet the mine's UPDES discharge limitations into the abandoned and sealed portions of the Gilson seam workings located on the east and west sides of the canyon. MSHA has been notified of our intent to discharge the water to the workings. The mine would prefer to use the water for dust suppression but this may not use all of the water currently stored in the pond.

We would like to remove the sediment from the pond at Dugout Canyon Mine in the later part of June of this year. If you have any questions regarding these submittals, please call me at (435) 448-2669.

Sincerely,

Chris D. Hansen

APPLICATION FOR PERMIT PROCESSING

Permit Change ☒ XNew Permit ☐Renewal ☐Transfer ☐Exploration ☐Bond Release ☐

Permit Number: ACT/007/034

Title of Proposal: Modifications to Allow for Disposal of Pond Sediment from Dugout Canyon Mine at Banning Loadout

Mine: Banning Loadout

Permittee: CANYON FUEL CO., LLC

Description, include reason for application and timing required to implement: Dugout Mine is planning to clean its sediment pond early this summer (end of June) and needs a location to store the sediment.

Instructions: If you answer yes to any of the first 8 questions (gray), submit the application to the Salt Lake Office. Otherwise, you may submit it to your reclamation specialist.
